At the outbreak of the War of the Babellion he was commissioned by Gorernor Dennison, of Obio, Major-General of Volunteers, and placed in command of the troops invading Westere Virginia. The writer of these lines remembers having helped to put into type, from the menuscript, in the office of the Wheeling Intelligencer, in May, 1801, the first proclamation of the "Young Napoleon" to the rebellious people of that border State. He quickly gained successes on that early theater of the war—successes which were then considered great military schievements, and these drew the attention of the country to him. He attention of the country to him he was heatily recipied as the trush itself about. This was been at the lary, stone and the whole would suit may of our salon many of our salon

It was a mighty army, splendid in organization, almost perfect in equipment, and backed by the willing and eager support of the Government and the loyal States, which had lavishly poured out the very flower of their youth for its rank. After long but nacesany delay, McClellan, heeding the voices of Congress and the clamors of the country, moved upon Richmond by the Peninsula route, but stopped before Yorktown, where Magrader, with an inferior force and a few "Qasker" gms, fooled the "Young Kapoleon" and held, him at bay for weeks. The main Confederate force, under Johnston, and subsequently under Lee, confronted the Army of the Potomes and covered the Approaches to Richmond successfully. The bicody actions of Williamburg, the Chickshominy, White Oak Swamp, Even Plues. Barges Station, and others, (called by the collective title of the "Seven Days' Batties") were fought on the advance and the retreat, ending with famous Malvera Hills, where the Confederate parentil was at last cheeked, after heavy losses on both sides, and the exhausted Army of the Potomae left to continue its retreat, unmoisted, to Harrison's Landing and the shalter of the guidosts, and later to Fortriss Monroe, whights it was ordered by General Halleck, who, meantime, habesen made General-in-Chief.

Successful as a mere organizar, Me-Clellan had, in the course of a very few months, proved himself dedicient as commander in the faild at the head of a powerful and well-equipped army operating against an inferior force menuversing upon interior lines.
